WINTER PROOF YOUR SKIN

THE MOST COMMON SKIN
CONCERN WE ARE CONSTANTLY
HEARING ABOUT AT THIS TIME
OF YEAR IS DRYNESS.

As humidity in the air drops and cold, heating and wind increase, our skin can start to feel tight and dry. Our skin loses water at a faster rate during the colder months so it's important to have your skincare updated to meet the demands of winter.

* **Omega 3 and 6** are not only important for internal health but also for our skin, especially during winter. Talk to your therapist about adding some EFA's into your custom blended moisturiser to instantly boost moisture levels.

* **Lotion N** drastically and instantly reduces the "if I smile my skin might crack" feel and is a must in winter for most skins

* We LOVE **Oleo Gel** for prolonged cold/dry weather exposure including skiing and long haul flights as it provides the perfect barrier to prevent further trans epidermal water loss.

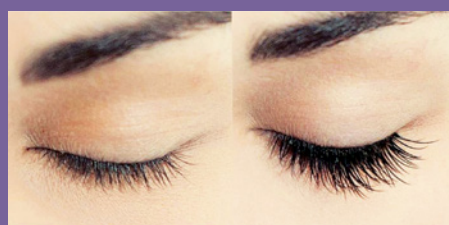

NEW PRODUCT ALERT!

EYENVY EYELASH CONDITIONER

WE HAVE SEARCHED HIGH AND LOW TO FIND
THE BEST LASH CONDITIONER WE COULD GET
OUR HANDS ON AND WE FINALLY HAVE!

EyEnvy is a conditioner which helps to improve the length, volume and thickness of eyelashes and eyebrows. This patented formula includes a mix of peptides as well as vitamins ACE and B3 to feed and nourish hair follicles.

\$140
